

Tire Rack Street Survival Teen Driving School

LIFE-SAVING TEEN DRIVING PROGRAM IS COMING TO—Chattanooga, TN!

One of our most precious resources, our teens, are being taken from us every year as victims in car crashes -- more than 5,000 a year. Motor vehicle crashes are the leading killer of American youths aged 16 to 19 and one that accounts for more than 40 percent of fatalities in that age bracket. To reduce that number, The Tire Rack Street Survival® program hosted by the Chattanooga Region of the Sports Car Club of America is coming to Chattanooga, TN.

Tire Rack Street Survival® is a national driver education program that teaches teens the skills they need to stay alive behind the wheel. Unlike traditional novice driver education programs based on classroom theory and simple maneuvers, the Teen Street Survival program improves driver competence through hands-on experiences in real-world driving situations.

Teenagers learn from knowledgeable driving instructors how their actions govern a car's responses, what the limits of their vehicles are, and how to avoid accidents entirely. Unlike other advanced driving schools, students use their own vehicles so that the skills they learn can be directly translated to their own daily driving experiences as they drive home.
